

## Membership Issues - Auto-Renew

We have discovered an issue with our software in that some memberships have not been automatically recurring. While we sort through the full scope of impact this has had on specific accounts, you can help move the process forward. Please login to your RecDesk account and verify you have an active membership, and if not please re-enroll in your membership.

To check your membership, login and select "Profile" from icon in the top right corner. Once in your profile, select "History" and then "Memberships". If you find your membership to be lapsed, please re-enroll by selecting "Memberships" from the top menu and selecting the green "Enroll" button next to your membership of choice. If you find your membership to be lapsed, please re-enroll by selecting "Memberships" from the top menu and selecting the green "Enroll" button next to your membership of choice.
